Information

PRICES

Prices in this catalog cancel all previous lists and quotations. All prices subject to change without notice. Prices listed herein are F. O. B., Charlotte, North Carolina.

HOW TO ORDER

Give full information as required on order blank. (See back of catalog.)

GUARANTEE

Harkey Bros. Nurseries agree to resupply any plants, trees, etc., purchased from them, at half price, F. O. B. shipping point, if such plants have died from causes other than abuse or neglect. Such guarantee is void after one year from date of purchase. Should we be out of the item to be supplied, credit for similar amount or other stock of same value will be supplied.

We exercise the greatest care in keeping varieties true to name. If a mistake should occur in digging or shipping, we are in no way responsible for more than purchase price of plants only.

GENERAL

We have varieties, sizes and specimens not listed in this catalog, which we will be glad to quote as well as other items upon your planting list. All boxing and crating will be done at cost, except cash with order, packing free.

Specially selected stock when made by customers at the nurseries will be charged according to value of stock chosen, irrespective of catalog prices.

SHIPPING INFORMATION

WHEN—Middle of October to April 1st. All orders will be shipped on time as far as conditions and weather permit.

HOW—Manner designated by purchaser (Express, Freight or Parcel Post).

CLAIMS—All claims must be made within five days after receipt of stock ordered. Stock as per order and in good condition is not returnable.

GOODS IN TRANSIT—When we have delivered the goods to the forwarding company and received their receipt for good condition, any claim must be made to the delivery company. Have delivery agent note damaged condition on freight bill and make claim promptly.

TERMS—Cash with order. Accounts may be opened (upon satisfactory information as to credit) due in thirty days from date of invoice.

LARGE TREE MOVING A SPECIALTY

New Sharon Road

Charlotte, N. C.

Home Lover:

We believe you have thought many times during the past several years about improving your home and property, through the proper selection and use of shrubbery. Such a thought is so reasonable too, since, the intelligent use of shrubbery increases the actual value of your property (in a sense pays for itself) and makes your home more attractive in appearance, more charming as a place to live.

Probably you pondered this idea many times and still thought it better to wait. We understand, for we, too, remember the depression. But since a new day has arrived, since courage and faith have returned to lead us to better days, it seems fitting that definite action on your part it now desirable.

It has been our good fortune to enjoy a fair business even during the depression. We have continued to enlarge and improve our own grown nursery stock. We are now prepared to handle your orders quicker, better and in larger volume.

And we want your business, for we deserve your confidence. We operate one of the largest and most up-to-date Nurseries in the South. Here we grow our own pedigreed nursery stock in rich, loamy soil. It is very hardy and is specially suitable to this Southern climate. We give careful attention to packing and crating and make prompt shipment of all orders. Our prices are so reasonable. This is surely the time to buy. The big planting season is here, so with this letter we have enclosed our new catalog. Look carefully through the pages, notice the large variety of plants and shrubs, check those you desire, fill out the order blank--and the envelope needs no stamp. Mail it today.

In addition to our nurseries we have complete facilities, equipment and training to do landscape construction and large tree-moving. This enables you to place complete responsibility of a perfect job on one reliable party. Our work is done under the supervision of highly trained men.

Use the order blank in the catalog to order your nursery stock today. Then write us about your special plans for landscape construction. We shall consider it a pleasure to tell you more about our organization.

Very truly yours,

HARKEY BROS. NURSERIES.

3 to 4 feet..... 1.00

Jasminum Nudiflorum (Naked-flowered Jasmine)—Bright yellow flowers preceding foliage. Has glossy, green foliage all summer. February-March.
12 to 18 inches.....\$.35
18 to 24 inches..... .50

Jasminum Primulinum (Primrose Jasmine)—A weeping, low green shrub with green canes. Yellow flowers in June.
2 to 3 feet.....\$.35
3 to 4 feet..... .50

Kolkwitzia Amabilis (beauty bush)—A shrub producing long arching branches covered in spring with small tubular flowers of honeysuckle type, pink in color.
2 to 3 feet.....\$.75
3 to 4 feet..... 1.00

Kerria Japonica (Easter Rose)—An old favorite. It is of spreading habits, with double yellow blooms in early spring.
2 to 3 feet\$.50
3 to 4 feet..... .75

Lonicera Fragrantissimi (Early Fragrant Honeysuckle)—Fragrant white flowers. Medium open grower. Dark green foliage to late fall. February-March.
2 to 3 feet.....\$.35
3 to 4 feet..... .50
4 to 5 feet (extra heavy)..... .60

Lonicera Heckrottii (Everblooming Honeysuckle)—Flowers purplish rose outside, yellow inside. Very free blooming.
2 to 3 feet.....\$.50
3 to 4 feet..... .60

Lonicera Morrowii—White flowers followed by red fruit remaining all fall. Drooping branches. Medium height. April.
2 to 3 feet.....\$.35
3 to 4 feet..... .50
4 to 5 feet..... .60

Lonicera Tatarica (Tatarian Honeysuckle)—Tall. White flowers. Crimson fruit. March-April.
2 to 3 feet.....\$.35
3 to 4 feet..... .50
4 to 5 feet..... .60

Philadelphus Coronarius (Sweet Mock Orange)—Tall, graceful shrub. Profusion of white flowers. May.
3 to 4 feet.....\$.50
4 to 5 feet..... .75

Philadelphus Grandiflorus (Large Flowered Mock Orange) — Tall. Very large white flowers. May.
2 to 3 feet.....\$.50
3 to 4 feet..... .75

Philadelphus Virginale—Crested. Double white flowers. Highly fragrant. May.
2 to 3 feet..... .75
3 to 4 feet..... 1.00

Quercifolia (Oak Leaf Hydrangea)—Bright colored wooly leaves similar in form to an oak leaf; very showy panicles of white flowers in mid-summer.
18 to 24 inches.....\$.75
2 to 3 feet..... 1.00

Rosa Hugonis (Father Hugo's Rose)—Pale clear yellow blooms borne in profusion at lilac time.
2-year\$.75

Salvia Greggii (Autumn sage)—Carmine flowers come in early spring and continue until frost.
18 to 24 inches.....\$.50
24 to 30 inches..... .75

Spirea Billiardii — Tall grower. Rose-pink flowers.
2 to 3 feet.....\$.35
3 to 4 feet..... .50

Spirea Bumalda (Anthony Waterer)—Rose-pink flowers in summer. Medium grower. For garden or borders. June-September.
12 to 18 inches\$.35
18 to 24 inches50

Spirea Callosa Alba — Low growing; clusters of white flowers. June-September.
12 to 18 inches.....\$.35
18 to 24 inches..... .50

Spirea Prunifolia (Bridal Wreath)—Tall grower. White small rose-like flowers in profusion on stem. Shiny green foliage. March-April.
2 to 3 feet.....\$.35
3 to 4 feet..... .50

Spirea Thinbergii (Thunberg's Spirea)—Medium height shrub. Spreading branches, light green foliage. Pure white flowers in early spring. March.
18 to 24 inches.....\$.35
2 to 3 feet..... .50

Spirea Tomentosa — Pink flowers on spikes of dark green foliage, downy on the underside.

2 to 3 feet.....	\$.35
3 to 4 feet.....	.50

Spirea Van Houttei (Van Houtte's Spirea)—One of the best. Suitable for specimen or massing. Mass of white flowers. Makes beautiful hedge. April-May.

2 to 3 feet.....	\$.35
3 to 4 feet.....	.50
4 to 5 feet.....	.60

Symphoricarpos Racemosus (Snow-berry)—Low. Shade-loving plant. Large white berries in fall and on through winter.

2 to 3 feet.....	\$.50
------------------	--------

Symphoricarpos Vulgaris (Coral Berry or Indian Currant) — Dwarf shrub. Thrives in shade. Coral red berries until late winter.

2 to 3 feet.....	\$.50
------------------	--------

Syringa Alba (Common White Lilac)—White flowers. Tall grower. April.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Syringa Persica (Persian Lilac)—Slender growth. April.

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Syringa Vulgaris (Common Purple Lilac)—Old fashioned type. Purple flowers. April.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Tamarix Africana — Lacy foliage, profusion of small pink flowers. April-May.

3 to 4 feet.....	\$.50
------------------	--------

Viburnum Opulus (High - bush Cranberry)—Medium height. Fruit scarlet in midsummer. April-May.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Viburnum Carlesi — Hardy Flowering Shrubs—A valuable recent introduction from Korea producing its delicate spice-scented flowers in early spring.

12 to 15 inches.....	\$1.00
15 to 18 inches.....	1.25
18 to 24 inches.....	1.50

Viburnum Opulus Sterile (Common Old-fashioned Snowball) — Showy white flowers in clusters. April-May.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Viburnum Tomentosum Plicatum (Japanese Snowball)—Medium height. Handsome foliage. Double white flowers. April-May.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Weigelia Floribunda (Crimson Weigelia)—Vigorous grower. Profusion of small crimson flowers. Deep green foliage, downy on underside. May.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Weigelia Eva Rathke (Red - flowering Weigelia) — Dark reddish green foliage. Trumpet-shaped dark red blossom. May.

18 to 24 inches.....	\$.50
2 to 3 feet.....	.60
3 to 4 feet.....	.75

Weigelia Rosea (Pink Weigelia)—Showy pink flowers. Vigorous grower. One of the best. May-June.

18 to 24 inches.....	\$.35
2 to 3 feet.....	.50
3 to 4 feet.....	.75

Weigelia Van Houttei—Has blooms of a very pretty carmine color. May.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Flowering Trees and Shrubs

Albizzia Julibrissin (Mimosa or Silk Tree) — Small tree of much grace and beauty. Flat topped head. Finely pinnated foliage with pink flowers at tips of branches. July.

5 to 6 feet.....	\$.75
6 to 7 feet.....	1.00

Amygdalus Rosea (Double Pink Almond)—Small ball-like pink flowers entirely covering branches. April.

2 to 3 feet.....	\$.75
------------------	--------

Amygdalus Alba (Double White Almond)—Small ball-like white flower entirely covering stem. Suitable in flower border. April.

2 to 3 feet.....	\$.75
------------------	--------

Double-Flowering Peach (Red, White and Pink)—Large double flowers. Pretty for formal garden or in border with evergreens. April.

2 to 3 feet.....	\$.50
3 to 5 feet.....	.75

(Continued on page 6)

PARTIAL VIEW OF HARKEY BROS. NURSERIES
This shows stock shrubbery growing on our rich, loamy soil

Flowering Shrubs

(Approximate Blooming Period)

Very Early Spring:

Naked Flower Jasmine
Early Fragrant Honeysuckle
Pussy Willow

Early Spring:

Thunberg's Spirea
Japanese Flowering Quince
Varieties of Golden Bell

Spring:

Bridal Wreath Spirea
Purple Magnolia
Pink Flowering Almond
Flowering Crab
Flowering Peach
Red Choke Berry
Red Bud or Judas Tree
Persian White Lilac
Morrowii Bush Honeysuckle
Heckrotti Bush Honeysuckle
Common Purple Lilac
Common White Lilac
Azalea Hinodogiri
Azalea Amoena
Reeves' Double Spirea
Van Houtte's Spirea
Deutzia Gracilis
Deutzia Lemonei
Weigelia Rosea, and Other Varieties

Late Spring and Early Summer:

Deutzia Crenata
Deutzia, Pride of Rochester
Deutzia, Fortunei
Mock Oranges
Spirea Anthony Waterer
Azalea Macranthus

Summer:

Abelia
Magnolia
Spirea, A. W.
Butterfly Bush
Sweet Shrub
Hypericums
Hydrangeas

Late Summer and Early Fall:

Lespedeza
Althea or Rose Sharon
Crepe Myrtles
Mimosa

For Fall Coloring and Berries:

American Bittersweet
Red Choke Berry
Japanese Barberry
Snow Berry
Coral Berry

(Continued from page 4)

Cercis Canadensis (Red Bud or Judas Tree) — Profuse rich purple flowers in early spring. Effective with evergreens. April.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75

Cornus Florida (Common White Dogwood)—Small upright tree. White blossoms. Scarlet fruit. For border with evergreens. April.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75
4 to 5 feet.....	1.00

Cornus Florida Rubra (Red Flowering Dogwood) — Has reddish-pink flowers in April. More dwarfish type than white dogwood.

2 to 3 feet.....	\$1.50
3 to 4 feet.....	2.50
4 to 5 feet.....	3.00

Lagerstroemia Indica Alba — (White Crepe Myrtle.)

2 to 3 feet.....	\$.75

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75
4 to 5 feet.....	1.00

Lagerstroemia Indica — (Crimson Red Crepe Myrtle.)

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75
4 to 5 feet.....	1.00

Magnolia Obovata (Purple Magnolia)—Medium grower. Large purplish pink blooms in early spring, before appearance of foliage. April.

3 to 4 feet.....	\$3.00
4 to 5 feet.....	4.00

Magnolia Soulangeana—A hardy Magnolia, with large purple pink and white flowers.

2 to 3 feet.....	\$3.00
3 to 4 feet.....	4.50

Malus Floribunda (Japanese Flowering Crab)—Literally covered with pink buds and white flowers in early spring. Yellow fruits.

4 to 5 feet.....	\$1.00
5 to 6 feet.....	1.50

Flowering Crab—Scheideckeri: Tall upright grower, with small pink flowers.

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Flowering Crab — Purpurea: (Purple Crab)

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Flowering Crab—Spectabilis: (Chinese Flowering Crab)—Double, deep coral blossoms. Very showy.

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Malus Ioensis Plena (Bechtel Flowering Crab)—Large double-pink fragrant flowers on long stalks. Vigorous grower. Last to flower. Early Spring.

3 to 4 feet.....	\$1.00
------------------	--------

Melia Azedarach Umbraculiformis (Texas Umbrella Tree)—Dense. Spreading variety of chinaberry tree with symmetrical head.

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Prunus Pissardii (Purple Leaved Plum)—Purplish maroon foliage, pink flowers, spreading umbrella-like head.

3 to 4 feet.....	\$.75
4 to 5 feet.....	1.00

Prunus Serrulata (Japanese Flowering Cherry) — Drooping branches covered with delicate pink flowers. April.

5 to 6 feet.....	\$5.00
------------------	--------

Japanese Flowering Cherry (Upright)—Yoshino: Large white flowers, very showy for specimen planting.

3 to 4 feet.....	\$3.00
4 to 5 feet.....	4.50

Japanese Flowering Cherry (Upright)—Kofugen: Very showy double rose pink flowers in clusters, one of the best varieties.

3 to 4 feet.....	\$2.50
4 to 5 feet.....	3.50

Japanese Flowering Cherry (Upright)—Naden: Double pink flowers in clusters, extra nice for side-borders or street plantings.

3 to 4 feet.....	\$3.00
4 to 5 feet.....	4.50

Rhus Cotinus (Purple Fringe or Smoke Bush)—Old fashioned shrub. Feathery purplish flower.

4 to 5 feet (extra heavy).....	\$1.50
--------------------------------	--------

Salix Caprea (Goat or Pussy Willow)—Grayish fuzzy buds in early spring.

3 to 4 feet.....	\$.35
4 to 5 feet.....	.50
5 to 6 feet.....	.60
6 to 7 feet.....	.75

Stolonifera Lutea (Golden Twig Dog Wood)—Golden yellow branches, fine for winter color.

2 to 3 feet.....\$.75
3 to 4 feet..... 1.00

Weir Cut Leaved Maple (Japanese Cut Leaf)—Finely cut foliage and drooping limbs. Very graceful.

3 to 4 feet.....\$3.00
4 to 5 feet..... 4.50

Hedge Plants

Abelia Grandiflora. Per Hundred
18 to 24 inches (See page 6) **\$35.00**

Berberis Thunbergii (Japanese Barberry)
Per Hundred
12 to 15 inches (See page 1) **\$25.00**

Ligustrum Amurense (Amur River Privet.)
(See page 9) Per Hundred
2-year—2 to 3 feet.....\$ 7.00
2-year—3 to 5 feet..... 8.00

Spirea Van Houttei Per Hundred
2 to 3 feet (See page 4).....**\$25.00**

Broad-Leaved Evergreens

(BALLED AND BURLAPPED)

18 to 24 inches.....	2.00

Ilex Crenata (Japanese Holly) — Dark green glossy leaves. Inky black berries. Valuable for formal work or in border with bright fruited plants.

12 to 15 inches.....	\$1.50
15 to 18 inches.....	2.00
18 to 24 inches.....	2.50
2 to 2½ feet.....	3.00

Ilex Opaca (American Holly) — The familiar "Christmas" holly. Thick, dark green leaves. Bright red fruit. Difficult to transplant. Must be clipped of leaves.

18 to 24 inches.....	\$1.50
2 to 3 feet.....	2.00
3 to 4 feet.....	3.00

Ilex Glabra—Glossy green leaves, white flowers in spring, followed by blue berries in fall and winter.

18 to 24 inches.....	\$.75
2 to 3 feet.....	1.00

Ilex Integra—Glossy green oblong leaves are serrated and about one and one-half inch long.

2 to 3 feet.....	\$2.50
3 to 4 feet.....	3.00

Ilex Vomitoria—Medium to tall shrub with small dark green leaves, small white flowers borne in clusters in the spring, are followed by scarlet fruits.

2 to 3 feet.....	\$2.50
3 to 4 feet.....	3.50

Jasminum Floridum—The best medium sized evergreen jasmine producing yellow flowers during the summer.

18 to 24 inches.....	\$.50
24 to 30 inches.....	.75

Laurocerasus Officinalis (English Laurel)—Large spreading type. Rich green, glossy broad foliage. Valuable in foundation planting as evergreen background. Good for most soils and situations.

18 to 24 inches.....	\$1.00
2 to 3 feet.....	1.50
3 to 4 feet.....	2.00

Laurocerasus Caroliniana (C h e r r y Laurel)—Large shrub or small tree. Dark green, glossy foliage. Suitable for specimen growing or background or for formal work when pruned. Advisable to defoliate and prune heavy when transplanting.

2 to 3 feet.....	\$1.50
3 to 4 feet.....	2.00
4 to 5 feet.....	2.50
5 to 6 feet.....	3.00

Ligustrum Amurense (Amur R i v e r Privet)—Large oblong leaves. White fragrant flowers in clusters. Best evergreen hedge. Rapid grower.

4 to 5 feet (Specimen).....	\$.50
-----------------------------	--------

Ligustrum Lucidum (Evergreen Privet)—Large, thick, dark, shiny green leaves. Spreading grower. Valuable for foundation planting among conifers.

18 to 24 inches.....	\$1.00
2 to 2½ feet.....	1.50
3 to 4 feet.....	2.50

Ligustrum Japonicum (Japanese Privet)—Dense, broad leaf evergreen shrub. Rapid upright grower. Black berries. Valuable for screen.

2 to 3 feet.....	\$.50
3 to 4 feet.....	.75
4 to 5 feet.....	1.00
5 to 6 feet.....	1.50

Ligustrum (Manda's Golden Privet) — Small growing privet with attractive golden yellow variegated leaves.

18 to 24 inches.....	\$1.00
2 to 3 feet.....	1.50

Ligustrum Nepalense (Nepal Privet)—Valuable evergreen shrub for general ornamental planting. Resembles Japanese Privet but of more bushy growth with smaller leaves. White flowers. Blue-black berries.

18 to 24 inches.....	1.00
2 to 2½ feet.....	1.50

Lonicera Fragrantissima (Early Fragrant Honeysuckle) — Handsome gray-green foliage which generally remains on plant all winter. Mass of creamy, white intensely fragrant blooms.

2 to 3 feet.....	\$.35
3 to 4 feet.....	.50
4 to 5 feet.....	.60

Lonicera Nitida (Japanese P r i v e t Honeysuckle)—Dwarf variety, small leaf, glossy foliage.

12 to 18 inches.....	\$1.00
18 to 24 inches.....	1.50
2 to 3 feet.....	2.00

Ligustrum Quihoui — Dense growth, glossy deep green foliage. Particularly valuable on account of late blooming.

2 to 3 feet.....	\$.75
3 to 4 feet.....	1.00

Magnolia Grandiflora (Southern Magnolia)—Large pyramidal tree, very conspicuous with its glossy green leaves and large white fragrant blooms. Adapted to most soils and situations.

3 to 4 feet.....	\$1.50
4 to 5 feet.....	2.50
5 to 6 feet.....	3.50

Mahonia Aquifolia (Oregon H o l l y Grape)—Desirable for undergrowth in evergreen shrub planting. Rich green foliage bronzing in fall.

12 to 18 inches.....	\$1.00
18 to 24 inches.....	1.50

Mahonia Japonica (Leather Leaf Holly Grape)—Holly like, deep green leaves. Large cluster of small yellow flowers. Showy bunches of blue-black berries. Shade-loving.

12 to 18 inches.....	\$1.00
18 to 24 inches.....	1.50

Nandina Domestica — Medium sized shrub. Delicate foliage turning to red and bronze in winter. Small white flowers. Clusters of showy bright red berries all winter.

12 to 18 inches.....	\$.75
18 to 24 inches.....	1.00
2 to 3 feet.....	1.50
3 to 4 feet.....	2.00

Osmanthus Fortunei (Holly Leaf Tea Olive) — Compact growing small tree, hardy as far north as Washington, D. C.

18 to 24 inches.....	\$1.50
24 to 30 inches.....	2.50

Osmanthus Fragrans—Small white flowers of intense fragrance.

18 to 24 inches.....	\$2.00
24 to 30 inches.....	3.00

Photinia Glabra—An evergreen with attractive new growth deep red color.

2 to 3 feet.....	\$.75
3 to 4 feet.....	1.00
4 to 5 feet (extra heavy).....	2.00

Photinia Serrulata (Evergreen Photinia)—Medium to large sized grower. Attractive shade of green foliage in summer. Turning to shades of red in winter. Prefers some shade.

2 to 3 feet.....	\$1.50
3 to 4 feet.....	2.00

Pyracantha Crenulata (Kansuensis)—A new type which seems to berry more profusely and to grow a little stronger.

24 to 30 inches.....	\$1.50
30 to 36 inches.....	2.50

Pyracantha Coccinea Lalandi (Evergreen English Hawthorne)—Tall growing shrub or small tree with small leaf evergreen foliage. Scarlet berries in summer and fall. Specimen plant or for mass.

2 to 3 feet.....	\$1.50
3 to 4 feet.....	2.00
4 to 5 feet.....	2.50
5 to 6 feet.....	3.00

Pyracantha Gibbsi—In the autumn it bears large clusters of scarlet berries, which contrast admirably with the glossy, dark green foliage.

3 to 4 feet.....	\$2.50
4 to 5 feet.....	3.00

Pyracantha Gloriosa — A new dwarf spreading form of the Fire Thorn having small, light green foliage and bright orange berries.

18 to 24 inches.....	\$2.00
24 to 30 inches.....	2.50

Pyracantha Yunnanensis (Chinese Fire Thorn)—Similar to above variety but more spreading and dense. For borders or hedges.

18 to 24 inches.....	\$1.50
24 to 30 inches.....	2.50

Thea Bohea—The tea plant of commerce, producing white flowers with yellow anthers during fall and early winter.

18 to 24 inches.....	\$1.50
24 to 30 inches.....	2.00

Viburnum Rhytidophyllum (Leather Leaf Viburnum)—Medium height, semi-evergreen foliage, long leathery dark green leaves. Flowers yellowish-white. Fruit red to black.

18 to 24 inches.....	\$1.50
2 to 3 feet.....	2.00
3 to 4 feet.....	3.00

Viburnum Tinus — One of the handsomest and most satisfactory broad-leaved flowering shrubs.

18 to 24 inches.....	\$1.50
24 to 30 inches.....	2.00

Yucca Filamentosa (Adam's Needle)—Long green sword-like foliage. Tall spikes of creamy flowers.

3-year	\$.75

LARGE TREE MOVING TRUCK

Full equipment for large tree moving, expertly handled, is an important phase of Harkey Bros. Special Service

Coniferous Evergreens

(BALLED AND BURLAPPED)

Cedrus Atlantica (Atlas Cedar)—Airy, pyramidal tree with dark green foliage. Splendid for specimen.

18 to 24 inches	\$2.00
2 to 3 feet	2.50
3 to 4 feet	3.00

Cedrus Deodora (Cedar of the Gods)—Feathery foliage of a pleasing blue-green color. Most handsome of all large growing specimen conifers. Magnificent tree with graceful, low-sweeping branches.

2 to 3 feet	\$1.50
3 to 4 feet	2.50
4 to 5 feet	3.00

Cryptomeria Japonica — Pyramidal form of rapid growth. Tall, shaft-like, tapering abruptly from broad base. Most commonly planted native conifer of Japan.

2 to 3 feet	\$2.00
3 to 4 feet	2.50
4 to 5 feet	3.00
5 to 6 feet	4.00

Cunninghamia Lanceolata (Chinese Fir)—Sharply pointed light green foliage, turning to bronze color in fall.

2 to 3 feet	\$1.50
3 to 4 feet	2.50
4 to 5 feet	3.50
5 to 6 feet	4.00

Cupressus Sempervirens (Italian Cypress)—Tall. Very slender. Irregular outline. Dark green foliage with slight silvery cast. Appropriate for Spanish types.

3 to 4 feet	\$2.00
4 to 5 feet	2.50
5 to 6 feet	3.00
6 to 8 feet	4.00

Juniperus Communis Ashford (Ashford Juniper)—Short needle juniper. Foliage silvery greyish-green, turning purplish in winter. Very superior type. Compact growth. Spreading slightly outward at top.

2 to 3 feet	\$1.50
3 to 4 feet	2.00
4 to 5 feet	3.00

Juniperus Communis Depressa—A low spreading plant seldom exceeding a height of 2 feet. Very hardy, uninjured by extreme cold; blue green foliage.

18 to 24 inches	\$1.50
24 to 30 inches	2.00

Juniperus Communis (Common Juniper)—Dense, erect and almost parallel growth of branches. Greyish-green foliage. For formal effects.

2 to 3 feet	\$1.50
-------------------	--------

Juniperus Communis Depressa Aurea (Golden Spreading Juniper)—Flat, spreading compact growth. Foliage tinged with golden yellow in winter.

18 to 24 inch spread	\$1.50
2 to 2½ feet spread	2.00

Juniperus Chinensis (Chinese Juniper)—Columnar form. Greyish-green foliage. Suitable for mixed evergreen planting or formal effects.

2 to 3 feet	\$1.50
3 to 4 feet	2.50

Juniperus Chinensis Pfitzeriana (Pfitzer's Juniper) — Greyish-green foliage, prostrate or sweeping growth. Valuable for mixed planting as border plant.

12 to 18 inches	\$1.00
18 to 24 inches	1.50
2 to 3 feet	2.00
3 to 4 feet	2.50

Juniperus Communis Depressa Plumosa—Exceptionally low growing Juniper of recent introduction; the foliage is rich, bright green in the spring and summer and a beautiful bronze in winter.

12 to 18 inches	\$1.50
18 to 24 inches	2.00
24 to 30 inches	2.50

Juniperus Excelsa Stricta (Spiny Greek Juniper)—Compact well-shaped pyramidal with irregular crown. Foliage grey-green. Very valuable for formal effects.

15 to 18 inches	\$1.00
18 to 24 inches	2.00
2 to 3 feet	3.00

Juniperus Hibernica (Irish Juniper) — Tall, columnar. Grey-green needle-like foliage. Slow-growing. Formal use.

18 to 24 inches	\$1.00
2 to 3 feet	1.50
3 to 4 feet	2.00

Juniperus Japonica Sylvestris (Japanese Silver Cedar)—Variety of Japanese Juniper with silvery shaded foliage which has an unusually natural fresh color all winter. Upright grower with broad base and slender terminal.

2 to 3 feet	\$2.00
3 to 4 feet	3.00

Juniperus Japonica (Japanese Juniper)—Froned irregular form. Medium growth. Rich dark green foliage in winter.

18 to 24 inches.....	\$2.00
2 to 3 feet.....	3.00

Juniperus Oblonga (Nepaul Juniper)—Broad, upright type. Greyish-green foliage, rather loose growth with slender, recurring branches.

2 to 3 feet.....	\$2.00
3 to 4 feet.....	3.00

Juniperus Sabina Tamariscifolia (Tamarisk Savin Juniper)—Low and spreading with fresh green foliage.

12 to 18 inch spread.....	\$1.00
18 to 24 inch spread.....	1.50

Juniperus Virginiana (Red Cedar)—Dense green or bronzy foliage. Succeeds nearly everywhere. Tall and slender. Resembles Italian Cypress. Good for screen, group or formal work.

2 to 3 feet.....	\$2.00
3 to 4 feet.....	3.00
4 to 5 feet.....	4.00
5 to 6 feet.....	5.00

Juniperus Virginiana Glauca—Tall and slender with bluish-grey foliage. Highly valuable for garden, specimen or border.

3 to 4 feet.....	\$4.00
4 to 5 feet.....	5.00

Libocedrus Decurrens—One of the finest columnar evergreens for general planting in the South. The bright green foliage is always the same in summer and winter.

2 to 3 feet.....	\$1.50
3 to 4 feet.....	2.50
4 to 5 feet.....	3.50

Picea Excelsa (Norway Spruce)—Best spruce for specimen, screens, or hedges. Rather pyramidal. Dark green foliage.

18 to 24 inches.....	\$1.00
2 to 3 feet.....	1.50
3 to 4 feet.....	2.50

Pinus Densiflora—A good evergreen and a quick grower.

2 to 3 feet.....	\$2.00
3 to 4 feet.....	2.50
4 to 5 feet.....	3.00

Pinus Montana Mughus (Dwarf Pine)—Dwarf, slow, compact. Dark green foliage. Good for formal work.

10 to 12 inches.....	\$1.50
12 to 15 inches.....	2.00

Pinus Sylvestris (Scotch Pine)—Reddish-brown bark. Silvery green foliage.

2 to 3 feet.....	\$2.00
3 to 4 feet.....	3.00

Retinospora Pisifera Aurea (Golden Sawara Cypress)—In habit and form like preceding plant. Foliage tinged golden-yellow.

18 to 24 inches.....	\$1.50
2 to 2½ feet.....	2.00
2½ to 3 feet.....	3.00

Retinospora Pisifera (Sawara Cypress)—Broad flat foliage of deep glossy green. Tall pyramidal shape.

12 to 18 inches.....	\$1.50
18 to 24 inches.....	2.00

Retinspora Obtusa Nana—A low dwarf form of Retinspora Obtusa. Splendid for rock gardens.

12 to 15 inches.....	\$2.25
15 to 18 inches.....	3.00

Retinospora Plumosa (Plume Cypress)—A tall pyramidal shape. Useful for hedges and formal work. Stands shearing well.

2 to 3 feet.....	\$2.00
3 to 4 feet.....	2.50
4 to 5 feet.....	3.00

Retinospora Squarrosa (Moss Cypress)—Soft, silvery blue foliage. Graceful growth. Suitable for hedges or formal specimens. Stands clipping well.

12 to 18 inches.....	\$1.50
1½ to 2 feet.....	2.00
2 to 3 feet.....	3.00

Thuja Occidentalis Ellwangeriana (Tom Thumb Arborvitae)—A low, broad conifer. Globular while young. Broadly pyramidal as it matures. Greyish-green soft foliage. Turning purplish in winter. Valuable for urns, boxes and general planting.

12 to 18 inches.....	\$1.00
18 to 24 inches.....	1.50
2 to 3 feet.....	2.00

MEMORIAL GARDEN

Planted and constructed by Harkey Bros.
We are experts in this line of work

Thuja Occidentalis (American Arborvitae)—Columnar with broad base. Live, green, close foliage. Splendid hedge plant. Valuable for formal use.

2	to 2½ feet.....	\$1.50
2½	to 3 feet.....	2.00
3	to 3½ feet.....	2.50
3½	to 4 feet.....	3.00
4	to 5 feet.....	4.00

Thuja—Orientalis Arborvitae Bakeri—A tall compact pyramidal arborvitae of great merit, withstanding considerable cold and enduring the hot, dry summers of the south.

18 to 24 inches.....	\$1.00
24 to 30 inches.....	1.50

Thuja Occidentalis Globosa (Globe Arborvitae)—Dense green foliage. Grows into nice globular shape, without shearing. Ideal for accent and formal use.

12 to 15 inches.....	\$1.50
15 to 18 inches.....	2.00

Thuja Occidentalis Hoyvei (Hovey's Arborvitae) — Dwarf dense evergreen. Light green foliage. Suitable for cemetery lots, borders and beds.

18 to 24 inches.....	\$1.50
2 to 3 feet.....	2.00

Thuja (Biota) Orientalis Pyramidalis—Similar to Occidentalis Pyramidalis but not such dense growth.

18 to 24 inches.....	\$1.50
2 to 3 feet.....	2.00
3 to 4 feet.....	2.50

Thuja (Biota) Orientalis Aurea Nana (Berckman's Golden Dwarf Arborvitae)—Slow growing and of formal habit. Golden yellow foliage all year. For garden or foundation planting. Conical shape.

12 to 15 inches.....	\$1.00
15 to 18 inches.....	1.50
18 to 24 inches.....	2.00

Thuja Orientalis (Chinese Arborvitae)—Rather loose growing columnar tree with bright green color in summer, growing darker in winter.

2 to 3 feet.....	\$1.00
3 to 4 feet.....	1.50
4 to 5 feet.....	2.00
5 to 6 feet.....	3.00

Thuja Occidentalis Pyramidalis (Pyramidal Arborvitae) — Columnar form. Dense dark green foliage. Because of tall slender habit valuable for formal planting.

2	to 2½ feet.....	\$1.50
2½	to 3 feet.....	2.00
3	to 4 feet.....	2.50
4	to 5 feet.....	3.50

Thuja (Biota) Orientalis Aurea Conspicua — Pleasing pyramidal shape. Dense growth. Has yellowish coloring at beginning of growing season.

18 to 24 inches.....	\$1.50
2 to 3 feet.....	2.50
3 to 4 feet.....	3.50

Thuja Pumila—A rather compact upright dwarfish globe form with slightly pointed crown. Dark green foliage. Very hardy.

2 to 3 feet.....	\$2.50
3 to 4 feet.....	3.00
4 to 5 feet.....	4.00

Tsuga Canadensis (Hemlock)—Invaluable as specimen or hedge. Liven's deciduous group in winter. Beautiful as hedge or in masses.

12 to 18 inches.....	\$2.00
18 to 24 inches.....	2.50
2 to 3 feet.....	3.00
3 to 4 feet.....	4.00

Evergreen Ground Covers

Hypericum Calycinum—(See Page No. 2)\$.25

Pachysandra Terminalis (Japanese Spurge)—Splendid ground cover. White bloom in spring. One of the very best for shady places.....\$.25

Vinca Major (Periwinkle)—Similar to Vinca Minor. Smaller leaves. Silvery variegated leaves. Suitable for porch boxes and hanging baskets\$.25

Vinca Minor (Periwinkle) — Bright blue flowers\$.25

Iris (Mixed)05

Peonies (Mixed colors)50

HARKEY BROS. LAWN MIXTURE (Best Suited for This Climate)

For a number of years we have tested different mixtures to see which stands the heat and cold of this climate and gives the best lawn. Out of these tests we have obtained "Harkey Bros. Lawn Mixture" and have not seen a better lawn grass for this section than produced by our mixture.

Seed, per pound (Recleaned).....\$.30

Shade Trees

Acer Platanoides (Norway Maple) — Rapid grower. Symmetrical. Rich green. Leaves staying on until late fall. Turning rich yellow. Rugged constitution.

8 to 10 feet.....\$3.00
10 to 12 feet..... 4.00

Acer Saccharum (Sugar Maple)—Broad-headed. Erect. Autumn foliage of orange and crimson. Unsited for boggy ground.

8 to 10 feet.....\$2.00
10 to 12 feet..... 3.00
10 to 12 feet (1½ to 1¾) 3.50
12 to 14 feet..... 4.00

Liquidambar Styraciflua (Sweet Gum)—Medium height. Maple-like leaves. Turning purplish crimson in fall. Suitable for lawn or avenue.

8 to 10 feet.....\$2.00
10 to 12 feet..... 3.00

Platanus, Plane Tree—Platanus Occidentalis (Sycamore)—The well-known variety extensively used for street and park planting especially where there is smoke.

8 to 10 feet.....\$1.50
10 to 12 feet..... 2.00
12 to 14 feet..... 2.50

Populus Nigra Italica (Lombardy Poplar)—Tall, rapid growing. Useful to break monotony of low growth or for screen.

6 to 8 feet.....\$.75
8 to 10 feet..... 1.00
10 to 12 feet..... 1.50

Quercus Palustris (Pin Oak) — Pyramidal habit. Graceful and spreading. Holds deeply cut leaves which turn brilliant scarlet till late fall. Suitable for avenue or lawn.

8 to 10 feet.....\$2.00
10 to 12 feet..... 3.00
10 to 12 feet (1¾ to 2) 4.00

CEMETERY DEVELOPMENT

*Planted and constructed by Harkey Bros.
Guaranteed work—reasonable prices*

Quercus Nigra (Water Oak)—One of the South's best shade trees. Soon covers a large area with its graceful spreading growth.

8 to 10 feet.....\$2.50
10 to 12 feet..... 3.00

Planting Suggestions

1. Arrival of Shipment. If plants are not to be put in their permanent place on arrival, put them in a trench and cover well and firmly with dirt.

2. Preparing to Plant. Dig the hole for the plant considerably wider than the spread of the roots. Loosen soil in bottom of hole and if extremely clayey, put in sandy soil or loose material for drainage. Fill hole with rich loamy soil if possible.

3. Setting the Plant. Spread carefully all root fibers. Set plant 1 to 3 inches deeper than it was planted in nursery. Do not plant too deep. Work soil around and under roots, leaving no air spaces. Pack dirt firmly nearly to top of hole. Give ample supply of water. Fill hole with loose earth and add mulch of some kind to preserve moisture.

4. After Planting. Because of extreme evaporation of moisture from branches and trunk and the making of new roots, plants must have much water all time during the first year and especially so during the hot and dry season. A much better plant will be made more quickly if proper pruning is done when planted.
